UT San Antonio Mechanical Engineering Freshman | Siemens Technical Intern

Proven leader and innovator in robotics, CAD, and digital media. Seeking to apply skills to impactful engineering challenges.

EDUCATION

8/2023 – 5/2025 Miller Career and Technology Center, Katy TX

Extensive training in Pneumatics, Hydraulics, Mechanical Fabrication, AC/DC Electrical Systems, Electrical Control, Thermal Systems, Metrology, Lean Manufacturing, Kaizen, CAD, and 3D Modeling. Hands-on experience with Festo Mechatronics (system integration), Fanuc/HAAS CNC (precision manufacturing), and FANUC robotic arm programming.

8/2025 – 5/2029 University of Texas: San Antonio, San Antonio, TX

Attending the University of Texas: San Antonio in the Honors college studying for a bachelor's in mechanical engineering. Currently holding a 3.92 GPA.

WORK EXPERIENCE

Technical Intern at Siemens - Digital Industries Software (GS&CS ISPFID IND) (June 2025 - Present)

- Developed and deployed applications using Mendix low-code platform, streamlining internal business processes.
- Utilized technical skills in software development and analysis to support various company initiatives.
- Created a Workforce Management application in Mendix to optimize workflows within Siemens.
- Collaborated with teams to identify and implement innovative technical solutions, leveraging CAD/CAE tools such as NX and Altair Inspire for design and analysis.
- Utilized advanced simulation software, including Simcenter Amesim, for comprehensive system modeling and analysis to inform technical solutions.

Marketing Assistant - University of Texas at San Antonio (August 2025 – Present)

- Designed and created flyers, posters, and other promotional materials for campus events.
- Managed and scheduled social media posts to increase engagement and event visibility.
- Collaborated with university departments to coordinate marketing campaigns.
- Distributed and maintained promotional materials across campus to boost attendance.

TECHNICAL SKILLS / WORKPLACE SKILLS

- CAD Software:** Autodesk Inventor, Fusion 360 (CAD/CAM), SolidWorks, OnShape, PTC Creo, Designcenter NX, Simcenter 3D, Altair Inspire
- Programming:** C++, Python, JavaScript, C#, TypeScript, Java, LabView, Mendix Low-Code Platform
- Design & Media:** Adobe Creative Suite (Premiere Pro, After Effects, Photoshop, Lightroom, Illustrator), Blender (animation, CAD rendering), Social Media Management (Chick-fil-A)
- Machinery:** CNC Mill/Router, Lathe, Drill Press, Band Saw, Plasma Cutter, Laser Cutter, 3D Printers
- Certifications:** Autodesk Inventor/Fusion 360, OnShape, SolidWorks (CSWA), SACA Industry 4.0 (Gold), SACA Pneumatics (Silver), Mendix Rapid & Intermediate Developer, Designcenter NX Associate
- Mechanical Systems:** Pneumatic/Hydraulic system design & troubleshooting, mechanical assembly, precision measurement (calipers, micrometers), technical drawing interpretation, Lean/Kaizen principles
- Electrical Systems:** AC/DC circuit wiring & testing, relay logic & control systems, sensor/motor control integration, electrical troubleshooting

EXTRACURRICULAR ACTIVITIES

Mentor and Student Ambassador - Siemens Immersive Design Challenge @ UTSA (October 2025 – Present)

- Provided technical guidance and strategy.
- Taught various Siemens' Software to contestants to ensure high level of knowledge.
- Currently Awaiting Round 3 Decision.

FIRST Robotics Team 624 - CRyptonite (August 2021 – July 2025)

- President of Visual Media, Design Lead, and Build Lead
- Spearheaded CAD modelling, CNC manufacturing, and strategic scouting, contributing to the team's international success.
- Captured and edited competition footage to document team achievements and growth.

VOLUNTEER ACTIVITIES

Robotics Mentor (July 2025 – Present)

- Mentor for high school VEX and FIRST Robotics Competition (FRC) teams, guiding students through design, build, and programming phases to achieve competitive success.

AWARDS / RECOGNITION

- Recognized as a SkillsUSA District Champion in Mobile Robotics Technology for both the 2023-2024 and 2024-2025 seasons, also securing 4th Place at the State SkillsUSA competition in Mobile Robotics Technology (2023-2024). Additionally, I was a Technical Student Association (TSA) District Finalist in Software Development for the 2021-2022 and 2022-2023 academic years. With FIRST Robotics Competition (FRC) Team 624, I am a 4-time World Championship qualifier (2021-2025), a World Championship Division Finalist (2024), and a 3-time UIL title winner (2nd, 3rd, 2nd) in 2021, 2022, and 2024.
